Multi Academy Trust Information

Dear Parent/Carer

Following the school's Ofsted inspection, which took place in October, we were issued with a special measures judgement and an academy order which meant that Darton College would be directed to join a Multi Academy Trust.

During the week before the Easter break, a decision was made by the Regional Schools Commissioner and Headteachers' Board that Delta Multi Academy Trust would become our sponsor.

Over the last few months, we have worked closely with Wales High School, supported by Executive Principal Mr G Di'Iasio. We have focused on moving forward incisively and with pace to make the necessary changes required to improve the school's performance.

Our priority remains to ensure that all learners receive an excellent education. I strongly believe that staff, parents, carers and learners of the school should feel positive about the future of Darton College moving forward with Delta.

We will continue our work with Wales High School until Spring Bank. Delta Academies Trust will carry out work at Darton behind the scenes during this time and they will then work with the school in a substantive way from Monday 4th June 2018.

There will be an opportunity for parents and carers to meet with members from Delta Academies Trust to hear about their vision for education and their commitment to support learners at Darton College. The date for this meeting will be communicated in the coming weeks.

Thank you for your continued support.

Yours faithfully

Ms Kate Davies
Principal
